TRAIN PLUNGES INTO A LAKE

Killing Seven People Injuring Many Others.

SUN RAYS SPREAD RAILS

On Great Northwestern Railroad Near Spokane--Engine Lost.

Spokane, Wash., July 24.—At least seven lives were lost, seven persons seriously injured, and a score of others hurt in a wreck of the fast mail train on the Great Northern Railroad, a mile and a quarter east of Camden, Washington, 35 miles east of Spokane, late yesterday afternoon, when the locomotive, mail, baggage and smoking cars left the rails on emerging from a tunnel and plunging over seventy feet down an embankment. The cars were submerged in the waters of Diamond Lake. Spreading rails, probably caused by sun kinks, is given as the cause. The dead are:

N. Edward Munson, engineer, Hilliard, Washington.

Frank Bell, fireman, Hilliard, Washington.

Charles Danner, mail clerk, Spokane.

George R. Strickland, express messenger.

George H. Curlee, lumber man, Spokane.

T. J. Dolbow, Spokane, and an unidentified man.

Two divers made several unsuccessful attempts to find the locomotive. A part of the smoker not submerged, began to burn immediately after the car struck the water, increasing the difficulty of rescuing passengers.

THREE YOUNG CATHOLIC PRIESTS

Arrived From France for Duty in the Santa Fe Archdiocese and Elsewhere.

Three French priests who have been assigned to the archdiocese of Santa Fe arrived in the city Saturday evening direct from France and until they are given charges as assistant pastors will assist in the service at the cathedral. They are Rev. Father Eugene Bertram, Rev. Father Joseph Pajot, and Rev. Father Joseph Pajot.

Not one of the three priests can speak Spanish and they are able to speak English only brokenly. They do not anticipate having much trouble in mastering the two languages, however, as they are all young, "well educated" and anxious to learn.

Very Rev. Father Antonio Fourche, the venerable vicar general, was in a similar plight himself when he came to Santa Fe in 1867. At that time there were, comparatively speaking, few English speaking people in this part of the country and he naturally learned to talk Spanish first. He did not have any difficulty in learning to speak the Castilian fluently, but it was some time before he mastered the English sufficiently to carry on an ordinary conversation. The young priests just arrived, will probably not be assigned to duties until some time next month, or until after the annual ecclesiastical retreat. They landed in New York a week ago yesterday and were met there by Archbishop Peter Bourgade.

MILITARY POST AT CANANEA

1,000 Mexican Soldiers to Be Stationed There as Result of Strike.

Douglas, Ariz., July 24.—As a result of the labor riots and bloodshed which broke out in Cananea on June 1 among the Mexican employees at the Cananea Consolidated Copper Company's big copper mines, Cananea will be made an army garrison post and one of the largest military strongholds in northern Sonora.

The recommendation of Military Governor Luis B. Torres of Sonora, to this effect has just been approved by the war department in Mexico City and 1,000 Mexican troops will be stationed there at once.

Four companies of troops have been in Cananea ever since the outbreaks and this number will be increased to the number named.

SOLDIERS ARE AFTER PULAJANE REBELS.

Manila, July 24.—Governor Ide has requested the military aid to punish the Pulajanes in the province of Leyte. Two battalions of troops have been sent to the assistance of the constabulary. The island is reported to be completely subdued.

RETAIL GROCERS' ASSOCIATION THANK PRESIDENT FOR LAWS.

Chicago, July 24.—Through its executive committee which met yesterday, 150,000 members of the National Retail Grocers' Association thanked President Roosevelt for the stand he took in regard to the pure food law recently passed by Congress.

WILL NOW FIGHT OVER RUSSELL SAGE'S WILL.

New York, July 24.—The Herald today says that preparations for contesting the will of the late Russell Sage in the event of its provisions not being satisfactory to them have already been made by his nephews.

PLENTY OF GRASS; LOTS OF WATER

In Torrance County—Some Losses of Sheep—Talk With Librado Valencia.

Librado Valencia, a native of this city and for many years a resident of Gallisteo, but lately engaged in sheep growing in Torrance County, is in town on a visit to relatives and on business. Mr. Valencia is a good and respected citizen and has represented the county of Santa Fe in the House of Representatives of the legislative assembly very creditably. He is now well fixed in Eastern Torrance County and his postoffice is at Duran. His sons and daughters have also settled near him and are doing well. He reports conditions of the range in that section as very good with the prospects of sufficient water and grass for the fall and away into the winter. He sold his wool clip at 20 cents per pound and is well satisfied. The increase in lambs this spring was also satisfactory and the losses very few. His flock is not large, but he is proud to say that he did not lose a single lamb. He will remain here several days. He came overland from Duran in his buggy about 95 miles. There have been some losses in sheep in his section on account of the late rains. Juan de la Cruz Sanchez lost 300 lambs during the fall and rain storm on the end of July and Jacobo Yrisarri, of Albuquerque, 1,400 animals; Santiago Madrid lost 16 goats and other stock raisers in the vicinity lost smaller numbers. The deaths were due partly to the great hail stones that fell and partly to the cold and wet after the rains. The recent rains have formed many temporary lakes, which contain a good deal of water and are proving very valuable for the stock growers. The grass on the range is in better condition than he has ever seen it in his long experience in that section of over thirty years. Mr. Valencia says that a very good class of people are now settling in Eastern Torrance and Western Guadalupe Counties, that everything is quiet and orderly. Live stock, especially sheep, has increased in good numbers and the range is pretty well stocked. The people in that section are very well satisfied and prosperous.

GOLD BULLION COMPANY'S PLANS

New Dredge Works Well—Plenty of Water.

ADDITIONAL MACHINERY IS TO BE INSTALLED

Wood Goes to Denver for That Purpose.

En route from Golden to Denver, Colonel J. A. Wood, president and manager of the Gold Bullion Mining Company, which is located at the thriving mining camp southeast of Santa Fe, arrived in this city last evening and remained here over night. Colonel Wood was feeling in a particularly pleasant mood when he arrived this morning by a reporter of the New Mexican. Asked if there was anything in the way of news in the mining district, he stated that the new dredge which was recently installed there is doing fine work. It is for the purpose of securing new gearing and other machinery to increase the capacity of the machine that he is now on his way to Denver.

Active Operations Ten Days Ago.

"We began operating our new dredge about ten days ago," Wood remarked when interrogated further. "Of course we had quite a little adjusting to do which consumed several days. We have had the dredge in actual operation now one week. We are doing all we anticipated. We are now handling two cubic yards of dirt every minute."

"The dredge was built with a capacity of four yards per minute but owing to our fear concerning the water supply we regulated the machine to a capacity of two yards. After ordering the machine, fearing we would not have sufficient water to run it, we purchased two additional wells, giving us five wells in all. Since we began operations we have pumped from one well constantly and from a second well about one-half of the time. The water so pumped is more than sufficient to handle two yards of gravel per minute. Since learning this, of course, we will speed the machine to its full capacity and as soon as proper gearing arrives for this purpose, we will handle four yards per minute, making twenty yards each day in two ten-hour shifts. I am now on my way to Denver to get the requisite material to make this change in capacity."

Will Later Install Electric Power.

"The company has decided to gradually install electric power for its operation, finding that by so doing it will effect a large saving, both in fuel and labor. The board of directors has given me authority to make this change as rapidly as possible without hindering present operations."

"Well, how are the placers panning out? Judging from the improvements being made they must be a paying proposition," the reporter interrupted.

"Our expectations have been met," was the smiling reply of Colonel Wood. "The placer is not a disappointment in that respect."

Colonel Wood went from here to the northern part of the county on business before proceeding to Denver.

RUNAWAY ACCIDENT NEAR ESPANOLA

Three Out of Party Injured Seriously—Were Well Taken Care of.

Special to the New Mexican. Espanola, N. M., July 24.—A party composed of Mr. Garrett, wife and child six years old and Mr. Evans, in making their way by carriage overland from Santa Fe to their homes in El Rito met with a serious accident near this town on Sunday evening last. The horses became frightened and after running some distance turned the carriage over, throwing every member of the party violently to the ground. Mrs. Garrett had one leg broken. Mr. Evans sustained injuries about the head and internally, although not serious. Mr. Garrett was considerably shaken up. The child escaped without a scratch.

The injured are being carefully cared for by Dr. Murphy of this place, the Espanola hotel being temporarily a hospital.

ESCAPED CONVICT IN ARIZONA JAIL

Eugenio Orona, Who Escaped From Las Vegas Scenic Highway Again in Toils.

The authorities at Globe, Arizona today informed Superintendent Arthur Treiloff of the territorial prison, that Eugenio Orona, convict No. 1676, who escaped from the penitentiary guards while at work on the Scenic Highway, near Las Vegas, May 16, 1905, is in jail at that place on a lesser charge. In answer to a wire from Superintendent Treiloff, the Globe officers said they would return Orona to the prison here at once. He was sent to the penitentiary from Luna County to serve a term of four years on a charge of larceny.

BURIED IN SAND UNDER FALLEN HORSE.

Friday of last week as Walter Concklin was crossing the Ocate Creek west of Colmar, his horse fell with him throwing him violently to the ground and into the bed of the stream. The horse, in attempting to get out, trampled on him, burying him almost out of sight in the mud. He was bruised and had a very narrow escape from being killed.

THE NEW MEXICAN PRINTING COMPANY IS PREPARED TO FURNISH ALL ORDERS FOR ENGRAVED INVITATIONS AND ALL WORK OF THAT KIND.

PEACE ADOPTED BY INTER-PARLIAMENTARY UNION IN LONDON.

To Prevent Hostilities Between Countries Having Grievances in Negotiations for Arbitration.

London, July 24.—W. J. Bryan's proposed rider to the model arbitration treaty was discussed at the session of the internal council of the Inter-parliamentary Union today and after being recast was adopted as follows: "If the disagreement is one to be submitted to arbitration, the contracting parties shall not resort to any act of hostility before they separately or jointly invite, as the case may necessitate, the formation of an international commission of inquiry or mediation of one or more of the friendly powers, this inquiry to take place if necessary in accordance with article eight of the Hague convention providing for the peaceful settlement of international conflicts." On resumption of the sessions of the union, the above was unanimously adopted.

MR. BRYAN MADE A BRIEF BUT ELOQUENT SPEECH AND AROUSED MUCH ENTHUSIASM AMONG THE DELEGATES.

A resolution was agreed to in the principle urging that disarmament be placed on the program of the next peace conference at The Hague.

RUSSIA HAS MANY TROUBLES

Massacres of Jews Started--Cossacks Rebel.

DEATH SENTENCE ON DOORS OF ARMY OFFICERS--MEMBERS OF FORMER DOUMA ARE ARRESTED.

St. Petersburg, July 24.—It is already certain that consternation exists in the upper spheres over the magnitude of the task that they have assumed. Events are marching with startling rapidity. All the old bureaucratic machinery of suppression has been placed in operation to prevent an explosion. Domiciliary searches continue in all quarters of the capital, prisons are already filling and the old blind system of attempting to conceal from the people what happens has been abandoned. The censorial press has been reestablished, accompanied by the wholesale confiscation of newspapers. At two meetings last night, Cossacks sent to disperse them, refused openly to do so and fraternized with the workmen. It is feared that the uprising in Odessa is only the first of a series of anti-Jewish outbreaks. Throughout the country is reactionary. The local authorities consider the dissolution of parliament a repressive measure and the signal for unleashing the mobs on the liberals and revolutionists. Revolutionary emissaries are scattering to the country and expect to induce the peasants to rise almost in a body.

How Machine Shops Were Wrecked

Sosnowice, Russian Poland, July 24. Simultaneously at noon yesterday bombs were thrown into four stores of the Singer Sewing Machine Company here, and at Bendzin, Zawierze and Czesochau, wrecking them and wounding many persons. The bomb throwers were agents of the Polish socialist party which made the Singer Company an example of what may happen to others for refusing to contribute to the revolutionary cause. The Singer agent refused to give a sum of money for the benefit of the socialist party and was told that the shops would be destroyed. A reign of terror exists here.

Military Dictatorship Is Planned.

St. Petersburg, July 24.—Way has been prepared for a military dictatorship by a proposition now under consideration at Peterhof to create an advisory council to assist the Emperor. The plan, which is foredoomed to failure, seems to be a deliberate plot of the court of Camarilla.

Leaders in Late Douma in Custody.

Viborg, Finland, July 24.—During the night members of the outlawed Russian Parliament received word that two of their number had already been arrested, namely Father Koyarkoff at Voronezh and M. Kharlamoff, a Cossack at Rostov-on-the-Don. Both Koyarkoff and Kharlamoff distinguished themselves by preaching revolution from the rostrum of Parliament. Some members of Parliament escaped arrest.

Copies of Death Sentence on Victims Doors.

St. Petersburg, July 24.—Proclamations announcing that the sentence of death has been imposed by the Emperor, on General Trepotoff, M. Pobedonostsev, on General Trepoff, General of the Holy Synod, General Orloff, the "Pacificator" of the Baltic Provinces, and others, have been scattered over a part of Peterhof. The terrorists are said to have succeeded in nailing copies of the sentence on the doors of General Orloff's and General Trepotoff's quarters.

Killing More Jews at Odessa.

London, 3:50 p. m., July 24.—A dispatch to the Reuters telegram company from Odessa timed 3:50 p. m. says Anti-Jewish outbreaks have commenced at Odessa. A number of persons have already been killed or wounded. Cossacks and rowdies are plundering deserted Jewish houses and shops. On Srednaia street, three Jews were killed and three were wounded in attempting to defend their property, while the police looked on. Another bloody conflict is reported to be in progress in Stepaevsk street. The whole city is in a panic. Many inhabitants are fleeing. The "Black Hundreds" are distributing blood thirsty proclamations.

Tried to Capture Workmen Delegates.

Moscow, July 24.—The police today attempted to capture all the delegates to the workmen's council but succeeded in capturing only fourteen.

Rights of People Cannot Be Denied.

London, July 24.—W. J. Bryan said yesterday that he was sorry to see the Russian Douma dissolved.

"I am satisfied there will be no backward steps," said Mr. Bryan. "Recognition of the right of a people to self government cannot be undone."

THE NEW MEXICAN PRINTING COMPANY IS PREPARED TO FURNISH ALL ORDERS FOR ENGRAVED INVITATIONS AND ALL WORK OF THAT KIND.
